# Color palette: standard colors

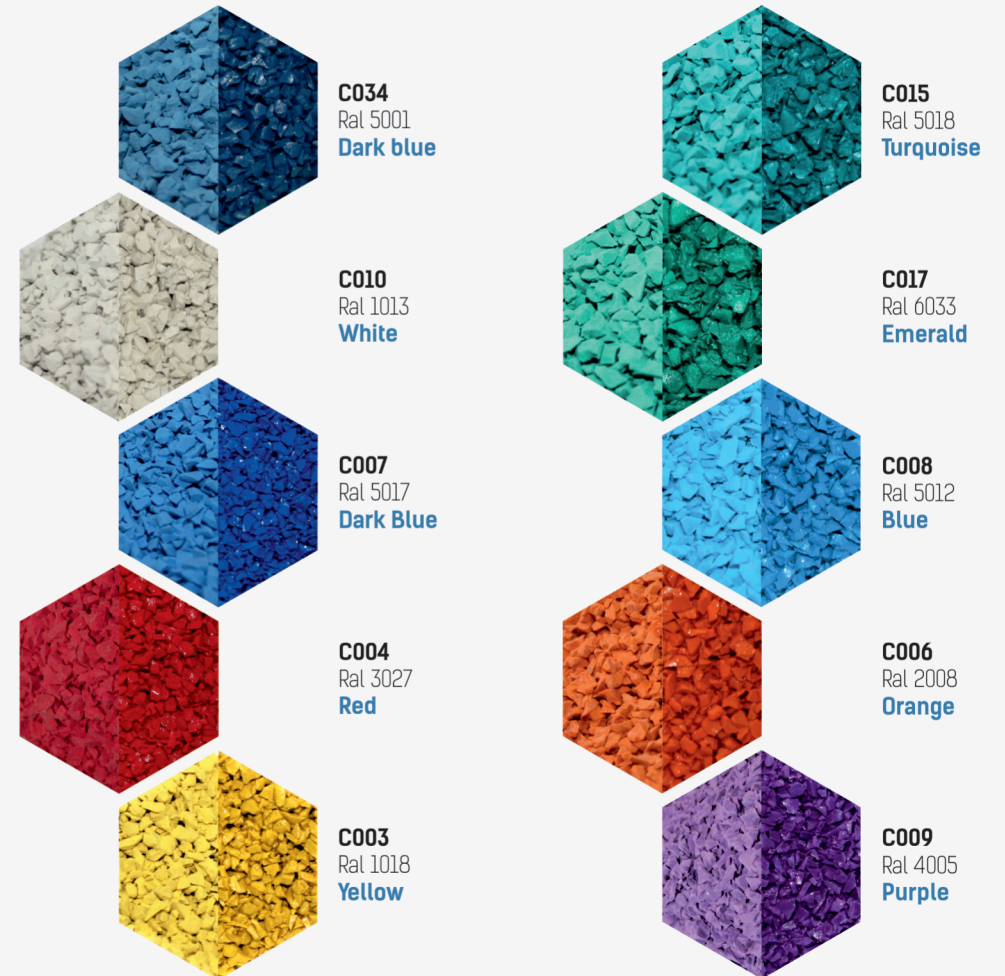

The standard palette consists of 20 basic colors.  
Bright and pastel, here everyone will find something for themselves.

# colors

## I group

## II group

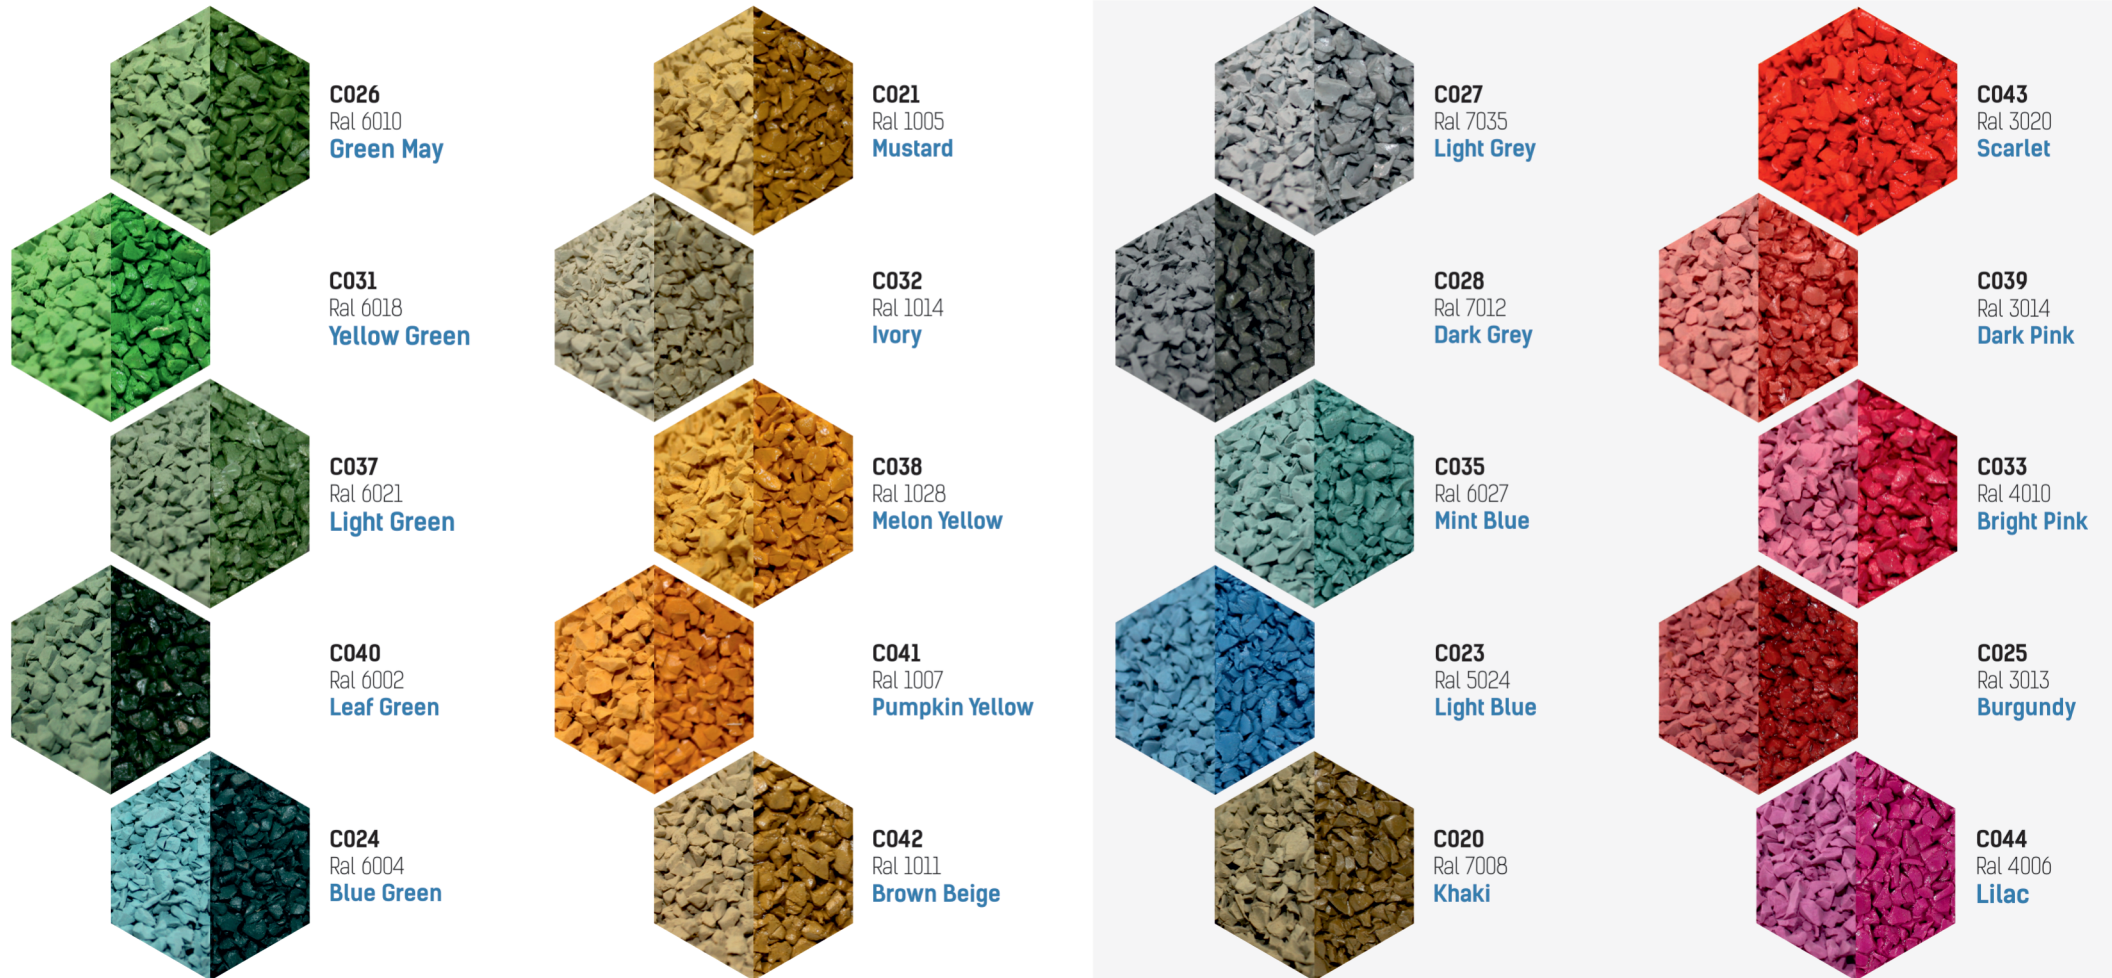

The Ral designation is an approximate value.  
For some colors it is recommended to use an aliphatic binder.

# Color palette: special colors

A special palette was created for particularly demanding customers, where the tonal difference of one color is of great importance.

## Special colors

The Ral designation is an approximate value.  
For some colors it is recommended to use an aliphatic binder.
